9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities	The Indicator is being developed
9.5 Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending	Percent share of expenditure in R&D to Total GDP
	Researchers (in full time equivalent) per million inhabitants

Target	Initial Draft National Indicator
	Percentage share of private sector spending on R&D
<p>9.a Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States</p>	<p>The Indicator is being developed</p>
<p>9.b Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities</p>	<p>Proportion of medium and high-tech industry value added in total value added.</p>
	<p>Percent share of expenditure in R&D to total GDP</p>
<p>9.c Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2020</p>	<p>Proportion of population covered by a mobile network, by technology</p>
	<p>No. of Broadband Subscribers (In Million)</p>
	<p>No. of Radio Stations (Public &Pvt.)</p>
	<p>No. of TV Households</p>
	<p>No. of Registered Newspapers</p>

Target	Initial Draft National Indicator
Goal 10. Reduce inequality within and among countries (Nodal Ministry: M/o Social Justice & Empowerment)	
10.1 By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average	The Indicator is being developed
10.2 By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status	The Indicator is being developed
10.3 Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard	The Indicator is being developed
10.4 Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality	The Indicator is being developed

10.7 Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies	The Indicator is being developed
10.a Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World Trade Organization agreements	The Indicator is being developed

Target	Initial Draft National Indicator
10.b Encourage official development assistance and financial flows, including foreign direct investment, to States where the need is greatest, in particular least developed countries, African countries, small island developing States and landlocked developing countries, in accordance with their national plans and programmes	The Indicator is being developed
10.c By 2030, reduce to less than 3 per cent the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5 per cent	The Indicator is being developed
Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable (Nodal Ministry: M/o Urban Development)	
11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums	Proportion of urban population living in slums, informal settlements or inadequate housing
	Proportion of population using an improved drinking water source
11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons	The Indicator is being developed
11.3 By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries	The Indicator is being developed
11.4 Strengthen efforts to protect and safeguard the world's cultural and natural heritage	The Indicator is being developed

Target	Initial Draft National Indicator
11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations	The Indicator is being developed
11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management	The Indicator is being developed
11.7 By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities	The Indicator is being developed
11.a Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning	The Indicator is being developed
11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels	The Indicator is being developed
11.c Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials	The Indicator is being developed
Goal 12. Ensure sustainable consumption and production patterns (Nodal Ministry: M/o Environment Forest & Climate Change)	
12.1 Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries	Formulation of national SCP framework and integration of SCP with national/state planning process

Target	Initial Draft National Indicator
12.2 By 2030, achieve the sustainable management and efficient use of natural resources	Percentage variation in per capita use of natural resources
12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses	Increase in per capita food availability
	Food Loss Index
12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment	Developing national secondary resource policy framework
	Development of national policy for environmentally sound management of hazardous chemical and waste
	Implementation of National Action Plan for fulfill obligations of various MEAs ratified.
12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse	The Indicator is being developed
12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle	Number of companies publishing sustainability reports
12.7 Promote public procurement practices that are sustainable, in accordance with national policies and priorities	Develop green public procurement policy
12.8 By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature	Develop sustainable practices manual/handbook in regional languages
	Develop icon on sustainable development
	Government to Celebrate year on Sustainable development

Target	Initial Draft National Indicator
	Wider dissemination through e-government platform, mass media campaigns, education curricula etc.
12.a Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production	Quantum of financial support received and environment friendly technologies transferred by developed countries.
12.b Develop and implement tools to monitor sustainable development impacts for sustainable tourism that creates jobs and promotes local culture and products	Number of sustainable tourism strategies or policies and action plans implemented with agreed monitoring and evaluation tools.
12.c Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities	The Indicator is being developed
Goal 13. Take urgent action to combat climate change and its impacts (Nodal Ministry: M/o Environment Forest & Climate Change)	
13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries	Number of states with strategies for enhancing adaptive capacity and dealing with climate extreme weather events.
13.2 Integrate climate change measures into national policies, strategies and planning	Pre-2020 action Achievements of pre-2020 goals as per countries' priorities
	Achievement of Nationally Determined Contribution (NDC) goals in post -2020 period.

Target	Initial Draft National Indicator
13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning	Number of States that have integrated climate mitigation and adaption in education curricula and outreach programs
13.a Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible	
13.b Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities	
Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development (M/o Earth Science)	
14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution	Health index of area of coastal water (percentage)
14.2 By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans	Percentage change in area under mangroves
14.3 Minimize and address the impacts of ocean acidification, including through enhanced scientific cooperation at all levels	Coral health index of Exclusive Environment Zone

Target	Initial Draft National Indicator
<p>14.4 By 2020, effectively regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-based management plans, in order to restore fish stocks in the shortest time feasible, at least to levels that can produce maximum sustainable yield as determined by their biological characteristics</p>	<p>The Indicator is being developed</p>
<p>14.5 By 2020, conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information</p>	<p>The Indicator is being developed</p>
<p>14.6 By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation[c]</p>	<p>The Indicator is being developed</p>
<p>14.7 By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism</p>	<p>The Indicator is being developed</p>
<p>14.a Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of Marine Technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries</p>	<p>Allocation of budget resources for research as per the EEZ or coastline</p>
<p>14.b Provide access for small-scale artisanal fishers to marine resources and markets</p>	<p>The Indicator is being developed</p>

Target	Initial Draft National Indicator
<p>14.c Enhance the conservation and sustainable use of oceans and their resources by implementing international law as reflected in the United Nations Convention on the Law of the Sea, which provides the legal framework for the conservation and sustainable use of oceans and their resources, as recalled in paragraph 158 of “The future we want”</p>	<p>Percentage compliance of international laws</p>
<p>Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss (Nodal Ministry: M/o Environment Forest & Climate Change)</p>	
<p>15.1 By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements</p>	<p>Forest area as a proportion of total land area</p>
	<p>Percentage of Tree outside forest (TOF) in total forest cover.</p>
<p>15.2 By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally</p>	<p>Percent change in Forest Area coverage</p>
	<p>Total area covered under different afforestation schemes</p>
	<p>Total tree cover achieved outside forest area</p>
	<p>Number of Nagar vans and School Nurseries created.</p>
<p>15.3 By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world</p>	<p>Percentage of restoration of degraded area</p>

Target	Initial Draft National Indicator
	Increasing Tree / forest cover in degraded area
	Percentage of net sown area increased.
15.4 By 2030, ensure the conservation of mountain ecosystems, including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development	Increase in forest / vegetative cover in mountain areas
	Restoration of waterbodies / streama in mountain areas
	Conservation of local wildlife species
	Improvement of local livelihoods
	Increase in per capita income of mountain dwellers

Target	Initial Draft National Indicator
<p>15.5 Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species</p>	<p>Red List Index</p>
<p>15.6 Promote fair and equitable sharing of the benefits arising from the utilization of genetic resources and promote appropriate access to such resources, as internationally agreed</p>	<p>Number of Access and benefit Sharing (ABS) agreements sign</p>
<p>15.7 Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products</p>	<p>Reduction in traded wildlife that was poached or illicitly trafficked.</p>
<p>15.8 By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species</p>	<p>Percentage change in prevention and control of invasive alien species</p>
<p>15.9 By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts</p>	<p>Progress towards national targets established in accordance with Aichi Biodiversity Target 2 of the Strategies Plan for Biodiversity 2011-2020</p>
<p>15.a Mobilize and significantly increase financial resources from all sources to conserve and sustainably use biodiversity and ecosystems</p>	<p>Official developmen assistance and public expenditure on conservation and sustainable use of biodiversity and eco system.</p>
<p>15.b Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation</p>	<p>Percentage of fund utilized for environmental conservation.</p>
<p>15.c Enhance global support for efforts to combat poaching and trafficking of protected species, including by increasing the capacity of local communities to pursue sustainable livelihood opportunities</p>	<p>Number of detection and prevention of traded wildlife that was poached or illicitly trafficked.</p>

Target	Initial Draft National Indicator
Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels (Nodal Ministry: M/o Home Affairs)	
16.1 Significantly reduce all forms of violence and related death rates everywhere	The Indicator is being developed
16.2 End abuse, exploitation, trafficking and all forms of violence against and torture of children	The Indicator is being developed
16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all	The Indicator is being developed
16.4 By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime	The Indicator is being developed
16.5 Substantially reduce corruption and bribery in all their forms	The Indicator is being developed
16.6 Develop effective, accountable and transparent institutions at all levels	The Indicator is being developed
16.7 Ensure responsive, inclusive, participatory and representative decision-making at all levels	The Indicator is being developed

Target	Initial Draft National Indicator
16.8 Broaden and strengthen the participation of developing countries in the institutions of global governance	The Indicator is being developed
16.9 By 2030, provide legal identity for all, including birth registration	The Indicator is being developed
16.10 Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements	The Indicator is being developed
16.a Strengthen relevant national institutions, including through international cooperation, for building capacity at all levels, in particular in developing countries, to prevent violence and combat terrorism and crime	The Indicator is being developed
16.b Promote and enforce non-discriminatory laws and policies for sustainable development	The Indicator is being developed
Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development (Nodal Ministry: M/o Finance)	
Finance	
17.1 Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection	The Indicator is being developed
17.2 Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries	The Indicator is being developed

Target	Initial Draft National Indicator
17.3 Mobilize additional financial resources for developing countries from multiple sources	The Indicator is being developed
17.4 Assist developing countries in attaining long-term debt sustainability through coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, as appropriate, and address the external debt of highly indebted poor countries to reduce debt distress	The Indicator is being developed
17.5 Adopt and implement investment promotion regimes for least developed countries	The Indicator is being developed
Technology	
17.6 Enhance North-South, South-South and triangular regional and international cooperation on and access to science, technology and innovation and enhance knowledge-sharing on mutually agreed terms, including through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism	The Indicator is being developed
17.7 Promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favourable terms, including on concessional and preferential terms, as mutually agreed	Quantum of International Support (both financial and institutional) received for promoting, adoption and diffusion of eco-friendly and resource efficient technologies and practices.
17.8 Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology	Proportion of individuals using the internet
	Number of hits for assessing technology banks
Capacity-building	
17.9 Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation	The Indicator is being developed
Trade	

Target	Initial Draft National Indicator
17.10 Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda	The Indicator is being developed
17.11 Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries' share of global exports by 2020	The Indicator is being developed
17.12 Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organization decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access	The Indicator is being developed
Systemic issues	
<i>Policy and institutional coherence</i>	
17.13 Enhance global macroeconomic stability, including through policy coordination and policy coherence	The Indicator is being developed
17.14 Enhance policy coherence for sustainable development	Formulation of national SCP framework and integration of SCP with national / state planning process.
17.15 Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development	The Indicator is being developed
<i>Multi-stakeholder partnerships</i>	
17.16 Enhance the Global Partnership for Sustainable Development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the Sustainable Development Goals in all countries, in particular developing countries	National Reporting to the Multi-lateral Environment Conventions to which India is Party.

Target	Initial Draft National Indicator
<p>17.17 Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships</p>	<p>The Indicator is being developed</p>
<p><i>Data, monitoring and accountability</i></p>	
<p>17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts</p>	<p>The Indicator is being developed</p>
<p>17.19 By 2030, build on existing initiatives to develop measurements of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries</p>	<p>The Indicator is being developed</p>
